## Investment Objective and Policies

The Fund aims to generate market returns by investing in a diversified portfolio of local, regional and global Sukuks.

The Fund's assets are invested predominantly in a diversified portfolio of sovereign, quasi-sovereign, corporate and convertible Sukuks. The Fund may also invest in Shariah compliant project finance and structured finance transactions. Excess cash which the Fund may have from time to time would be invested in short-term Murabaha deposits. The Fund Manager does not intend to borrow funds for investment but it may at times do so to meet redemption requests.

## Disclaimer

### Material changes

The fund's terms and conditions have been updated to reflect the new Board member.

### Definitions (risk metrics)

Metric	Description
Standard deviation	Standard deviation quantifies the dispersion of returns relative to their mean.
Tracking error	Tracking error is the divergence between the price behavior of a position or a fund and the price behavior of a benchmark.
Alpha	Measures the fund's value added relative to a benchmark.
Beta	Beta is a measure of a portfolio's volatility in relation to a benchmark.
Information ratio	A risk-adjusted measure that compares the performance of a fund relative to a benchmark compared to the volatility of those returns.
Sharpe	A risk-adjusted ratio that measures excess return over a risk-free rate relative to the volatility of a given security or fund.
